DETAILED ACTION

Terminal Disclaimer

The terminal disclaimer filed on 8/26/04 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No. 6,470,171 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Status of Claims

In response to the Amendment filed on 8/26/04, Claims 37-41 and 47-51 are pending. Claims 1-36, 42-46, and 52-74 are canceled.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 47-51 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

A claim to a computer program (i.e., computer program product) per se is not statutory subject matter. A claim to a computer-readable medium encoded with a computer program is a computer element which defines structural and functional interrelationships between the computer program and the rest of the computer which permit the computer program's functionality to be realized, and is thus statutory.

Allowable Subject Matter

Claims 37-41 are allowed.

Response to Arguments

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection. See rejection above. This action is made NON-FINAL.

Examiner regrets the delay in the citation of this rejection.
